

## PETER JOHN N. ALADO

Passionate Software Developer with hands-on experience in ERPNext development, specializing in accounting reports and business process automation, particularly in procurement management systems. Skilled in user interface design, system testing, and debugging processes. Proficient in installing, configuring, and maintaining web systems and computer networks. Experienced in Linux scripting using Ubuntu Subsystem for efficient system management and automation. A self-motivated learner, having completed various online programming courses, and eager to further enhance knowledge and skills through continuous learning and training.
